

FROM THE DESK OF  
MAX KOLONKO  
PRESIDENT  
OF THE UNITED STATES OF POLAND

Joe Biden  
President  
United States of America

Feb 24, 2022

**RE: POLAND's PEACE PLAN ON RUSSIA – UKRAINE CONFLICT  
URGENT**

Dear President Biden,

Military conflict in Ukraine will create a rush of 5-10 million Ukrainian refugees into territory of Poland, creating a large scale humanitarian crisis.

Russia may soon occupy large swaths of Ukraine, threatening the country's existence and moving closer to the territory of Poland, a NATO member.

It is imperative that a new, comprehensive model of Ukraine's statehood, based on the region's history, ethnic composition and business interests is established by international community as soon as possible.

As former White House Correspondent for Poland, a Polish American citizen, and – first and foremost – a citizen of our great Western Civilization, I am submitting the following Ukraine – Russia Peace Plan.

- 1- Military activities on the territory of Ukraine shall be suspended.
- 2- Ukraine shall be divided into 3 Peace Sectors: Western – Central – Eastern.
- 3- International Peacekeeping Force comprising of the United Nations, Poland and Russia shall take control in the sectors as follows: Western – Poland, Central – UN, Eastern – Russia.
- 4- Free City of Kiev shall be established.

5- In each sector referenda shall be conducted allowing people to decide whether to change the status of Ukraine into a federation of autonomous republics – The United States of Ukraine with a common Parliament and President.

6- Free and fair election should follow. This is of utmost importance. Presidential elections In all post-Soviet block's countries are abused by politicians and international lobbyists. In Ukraine it led to Maidan unrest in 2014 and war in 2022.

In Poland's presidential election of 2020 my candidacy was silenced by Poland's Supreme Court, despite receiving over 5.800 complaints regarding the presidential election, the largest number of complaints since the mid 1990s. People's revolution against the political cast resulted in creation of United States of Polonia and Poland with an *ad interim* President.

I was born in communist Poland, my family members are buried in cemeteries of Lwów, the 3rd largest city of pre-war Poland – now in Ukraine. Ukraine's capital, Kiev, is called Russia's Sacred City and Mother of All Russian Cities.

We must remember the long and complicated history of Eastern Europe to understand the nature of the conflict. Only then we can come to political solutions which will bring lasting peace and stability to the region and its people.

We are all Christians. We are all members of the Western Civilization. We must stop being the enemies from our Past, and become friends of our Future.

Yours sincerely
